

Making Nature-Based Solutions at the landscape scale a reality

Presentation for the Blue and Green Infrastructure, SuDS and Citizens
Meeting

23 November, 2022

Andrew Tabas

Nature-Based Solutions

Conceptual Diagram of Nature-Based Solutions (NBS) in the Allan Water Catchment

Upstream

Benefits: Open space; recreation

Needs: Compensation for lost production; funding for NBS construction

“Spatial disconnection between the NBS intervention (upstream) and the problem that is being solved (downstream)”
(Pattison and Beevers 2021)

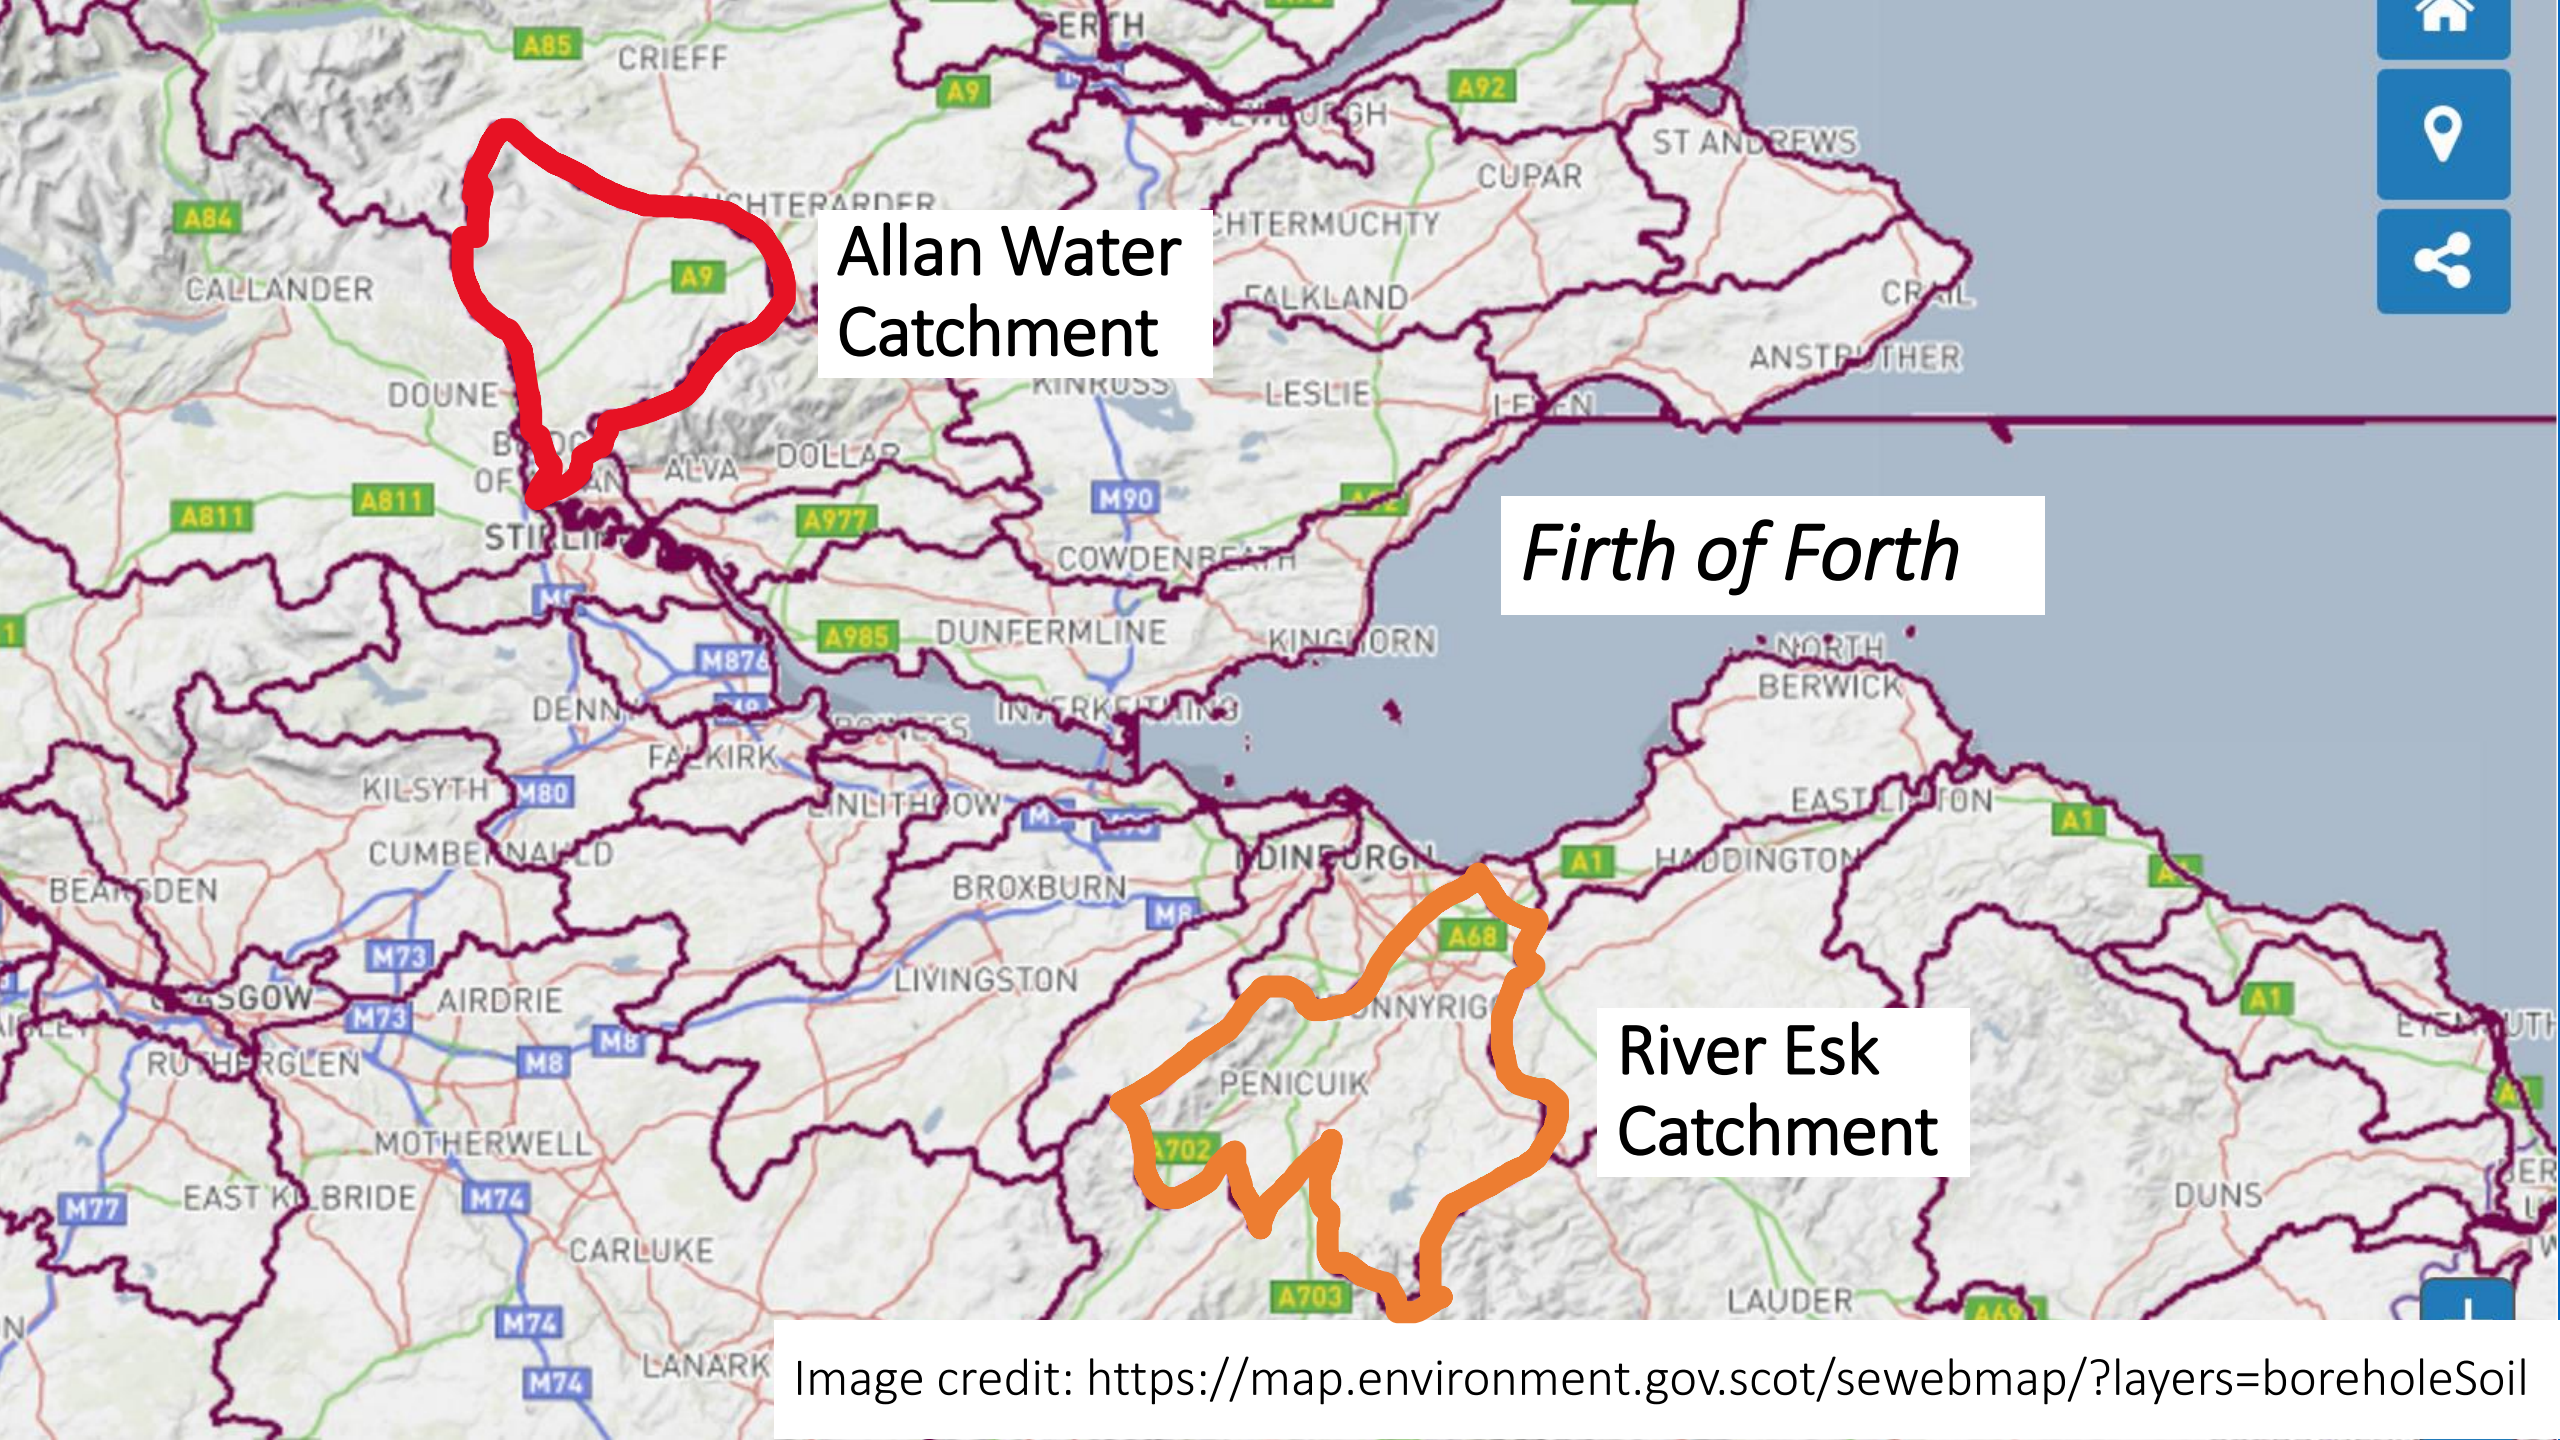

Downstream

Benefits: Flood risk mitigation

Needs: Trust in the effectiveness of NBS

The Allan Water

The River Forth

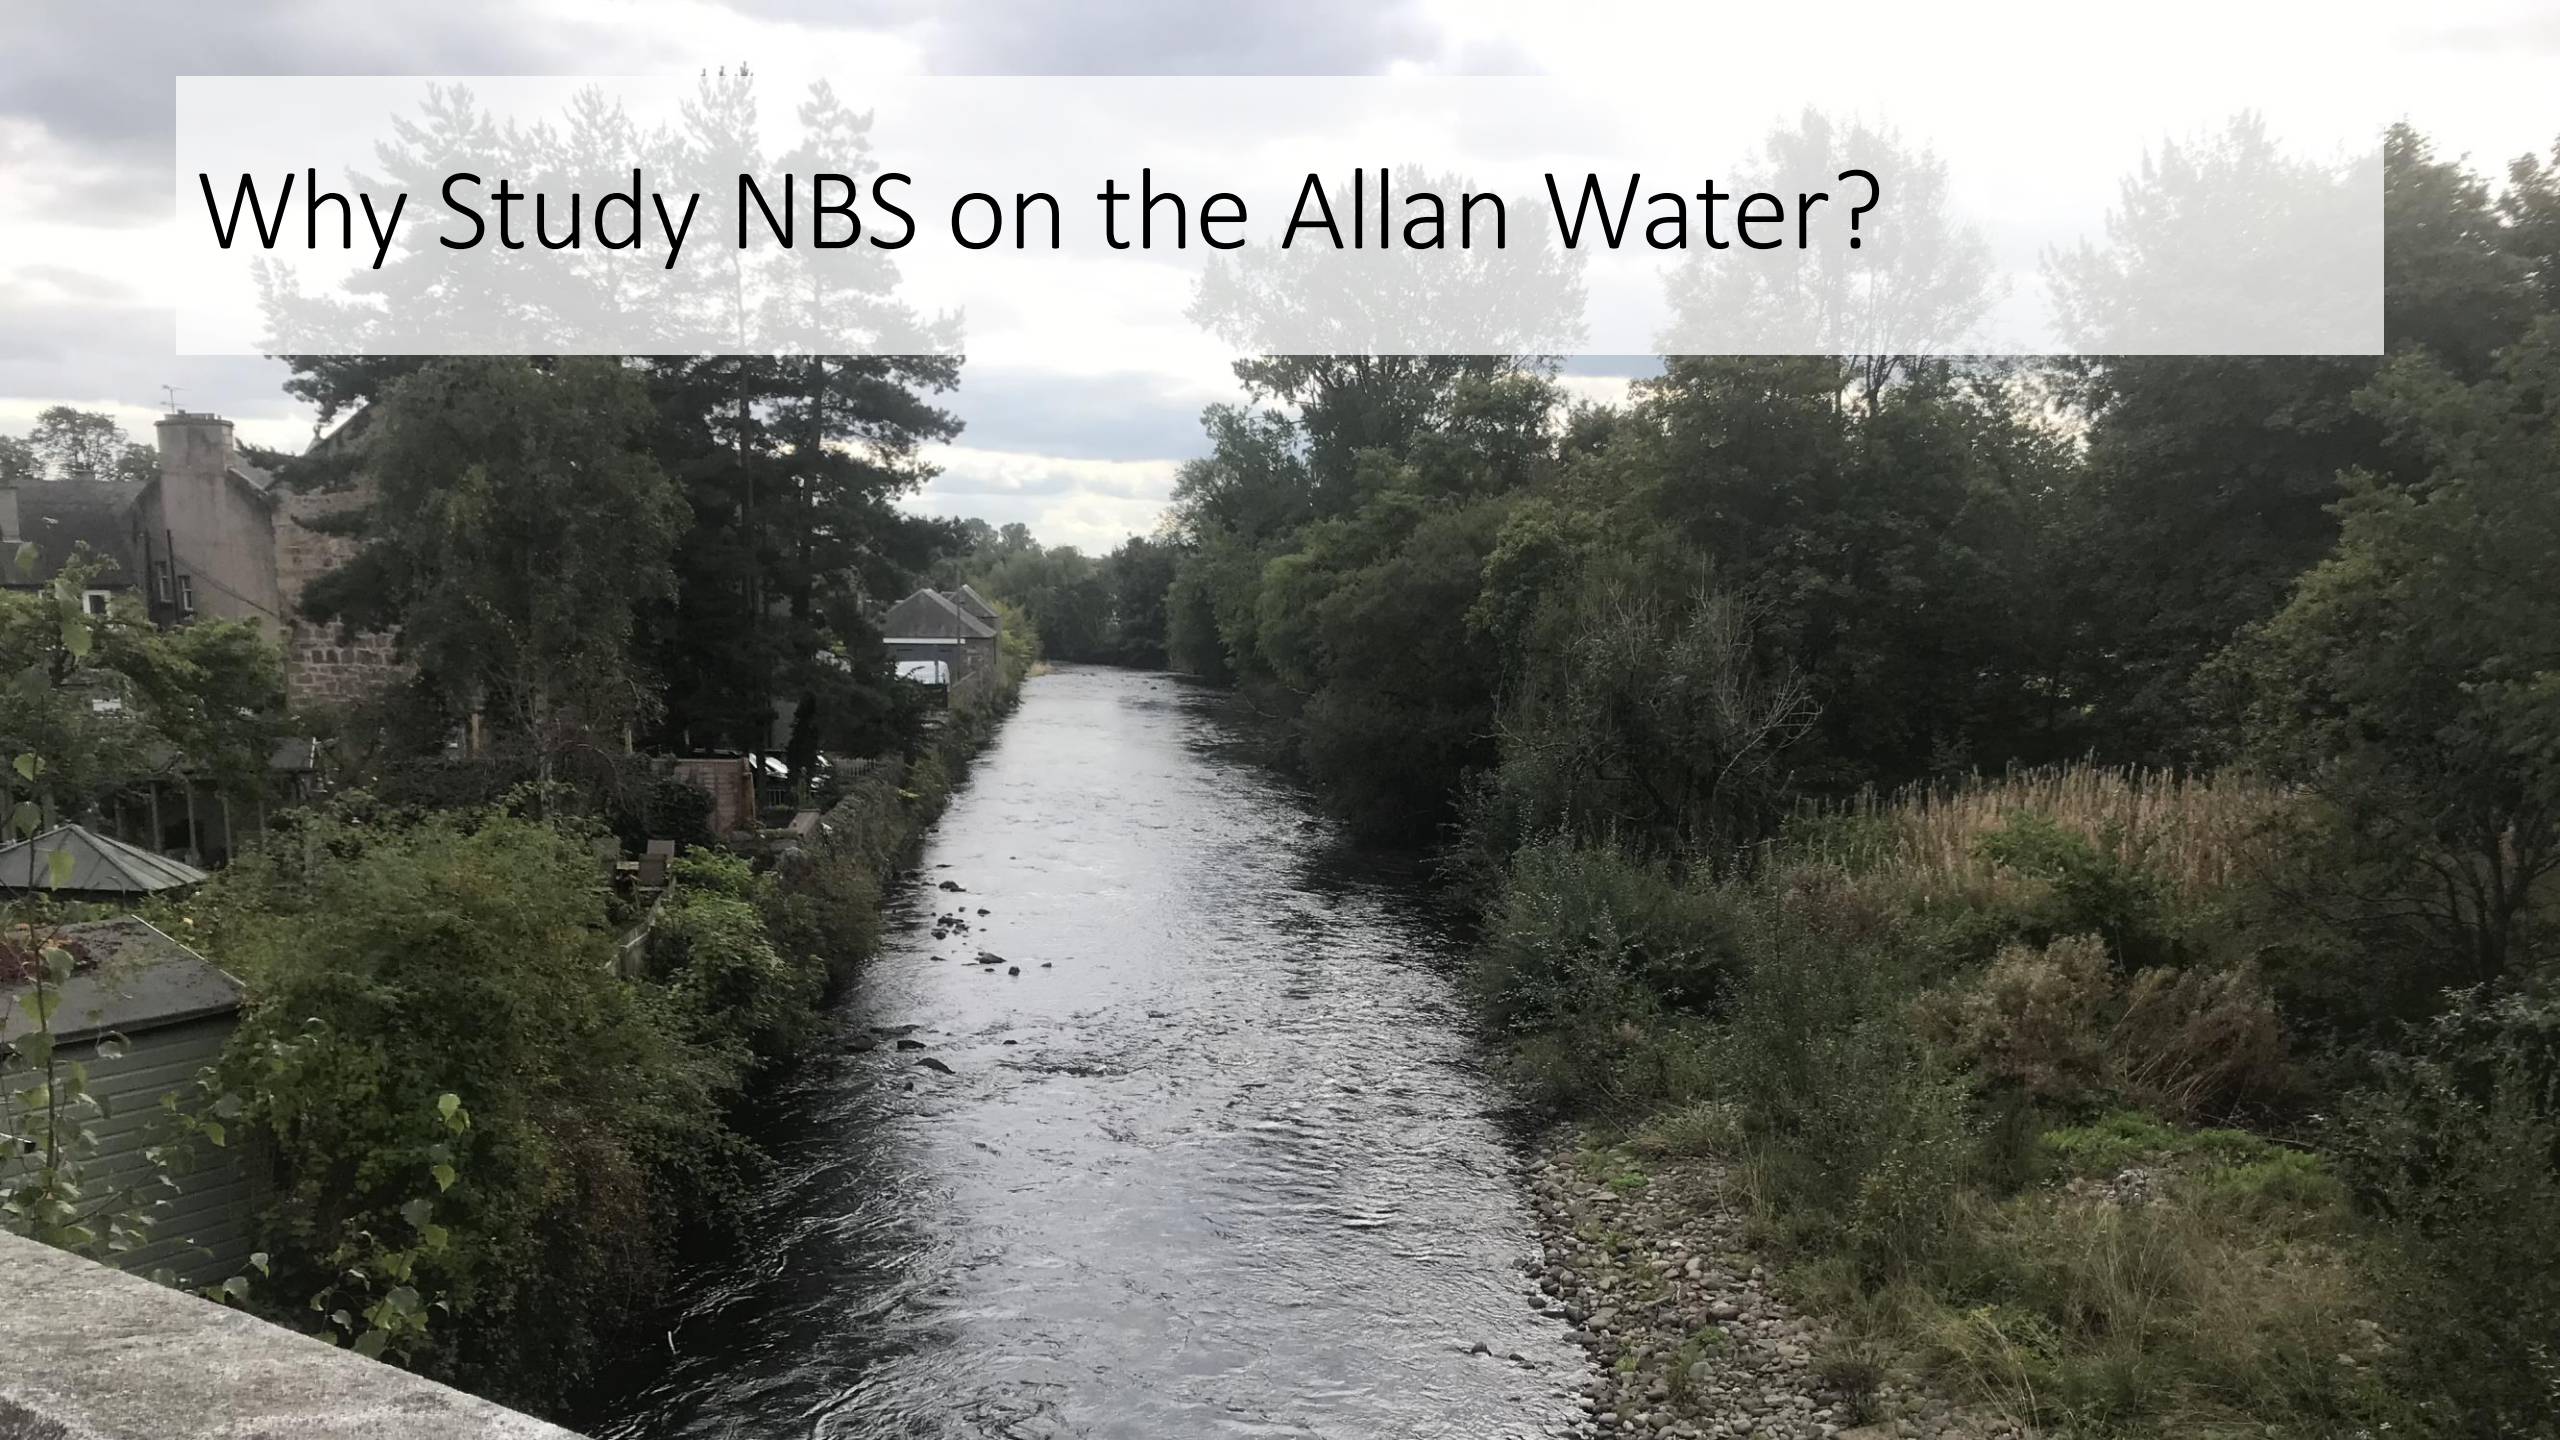

Allan Water
Catchment

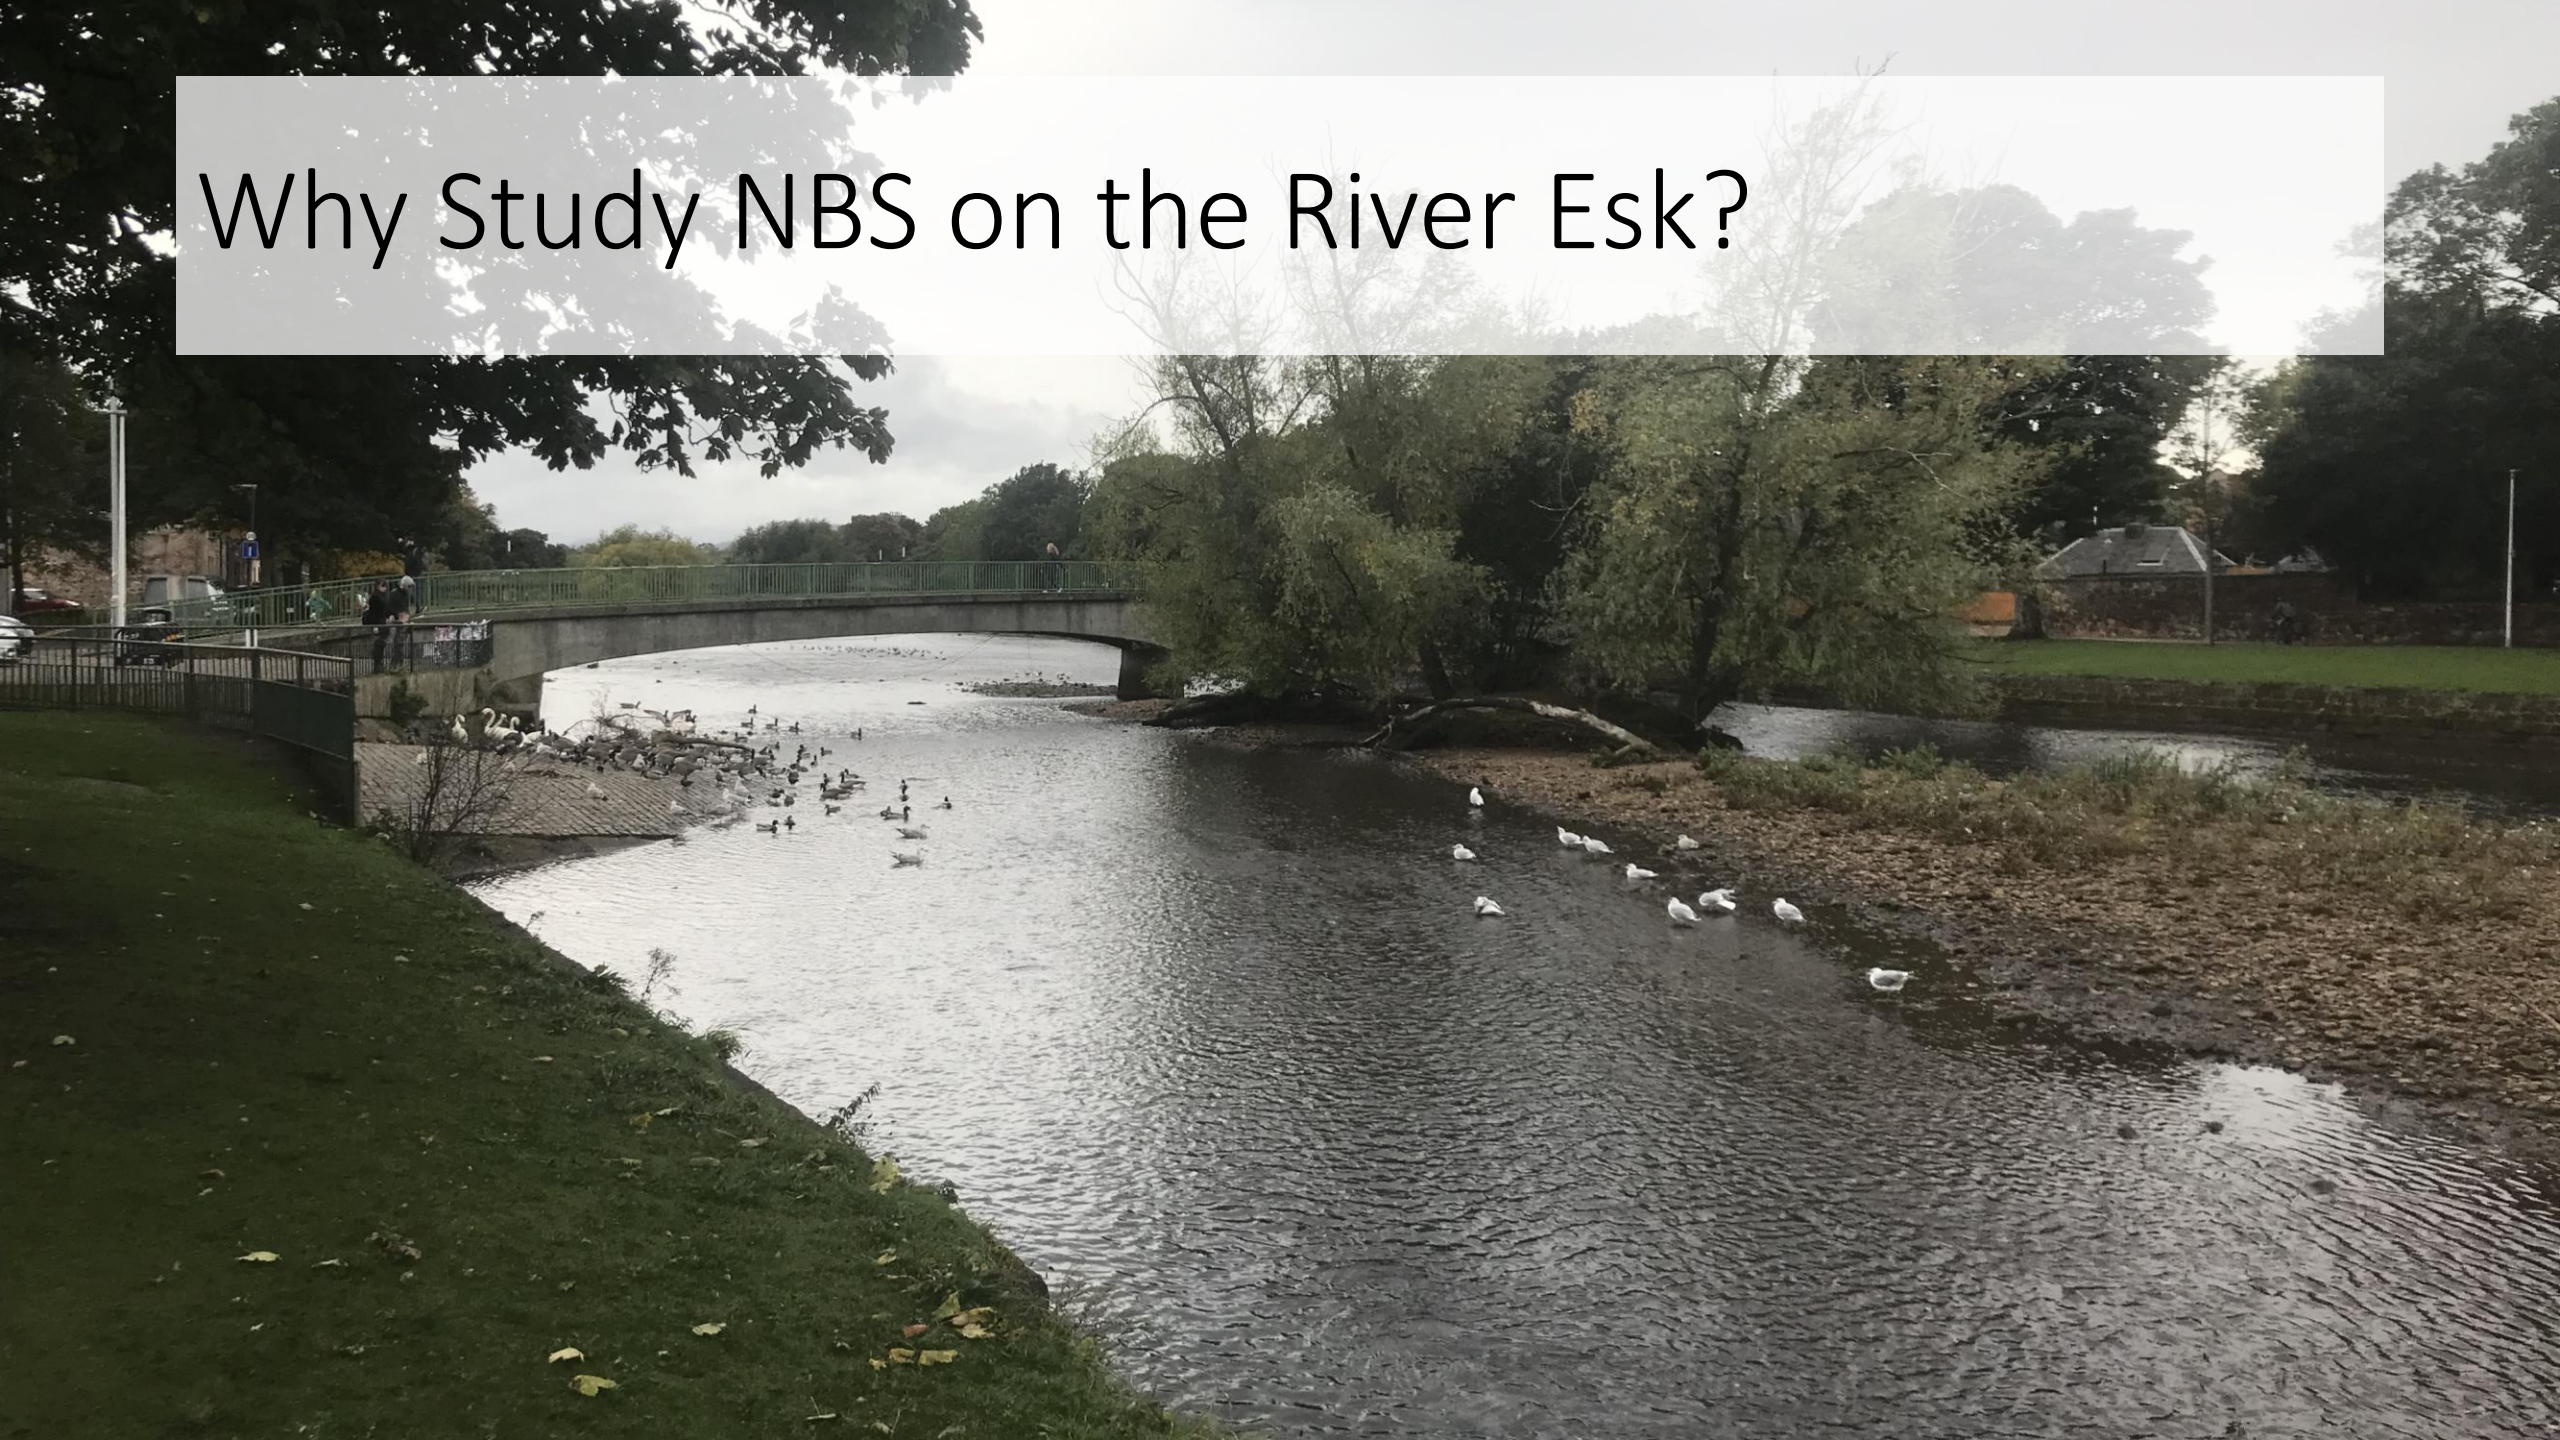

Firth of Forth
